ABOUT US

Forex trading, also known as foreign exchange trading or FX trading, is the act of buying and selling currencies with the aim of making a profit. The forex market is the largest and most liquid financial market in the world, with an average daily trading volume exceeding \$6 trillion.

In forex trading, currencies are traded in pairs, such as EUR/USD (Euro/US Dollar) or USD/JPY (US Dollar/Japanese Yen). Each currency pair has a base currency and a quote currency. The exchange rate tells you how much of the quote currency you need to buy one unit of the base currency.

GOALS AND OBJECTIVES

01

Forex trading often involves the use of leverage, which allows traders to control larger positions with a relatively small amount of capital.

02

The forex market is open 24 hours a day, five days a week, allowing traders to participate in trading activities at almost any time.

03

Exchange rates are influenced by a variety of factors, including interest rates, economic indicators, geopolitical events, and market sentiment.
